

# CUBE | CAN Quickstart

Thank you for purchasing a FRIZ Lights product. To allow you to quickly use the CUBE | CAN, we have checked and part-charged the products and pre-configured the remote control.

Please fully charge the unit before initial usage (about 3-4 hours).

In the following, we would like to present you the main functions of your FRIZ Light, as well as tips for the safe usage.

## Pre-set remote control

Your product comes with a remote control. CUBE | CAN are pre-configured with a main group number (ID) that can be found on a sticker underneath the light. Main group **11** is for **CAN**, main group **44** is for **CUBE**. By default, four light modes are available by pressing **M1** to **M4**.

<b>ON</b>		Switch on light
<b>OFF</b>		Switch off light
<b>M1</b>	<b>CANDLE</b>	Imitation of candle light
<b>M2</b>	<b>WHITE</b>	(Default= Cold-White; switch between Warm-White and Cold-White by pressing < or >
<b>M3</b>	<b>RAINBOW</b>	Lights of the same group change colors successively
<b>M4</b>	<b>PASTEL</b>	(Default = pink); change color by pressing < or >

If you want to save another color to be default, choose your preferred color by pressing < or > and press the **M4** button for 3 seconds.

## Secure Charging

Please use the corresponding USB charger. The CAN | CUBE must be turned OFF during the charging process. If the FRIZ Lights are inside the carrying case, make sure that the lid is open, the charger outside the case and that proper ventilation is secured.

## Attention

Usage of a wrong charger can damage the product and / or cause fire. During the charging process, up to three LEDs are flashing for a few seconds. The flashing will stop at full charge.
